Datasheet for 100-401-W92

Alpha II Spectrin Antibody

Overview

Description:	Anti-Alpha II Spectrin (RABBIT) Polyclonal Antibody - 100-401-W92
Item No.:	100-401-W92
Size:	100 µL
Applications:	IHC, WB
Reactivity:	Human, Mouse, Rat
Host Species:	Rabbit

Product Details

Background:	The spectrin family of cytoskeletal proteins is comprised of 2 alpha genes (α1 and α2) and five beta genes (β1-β5). Spectrins have been shown to function as scaffolding proteins in mechanical support of the plasma membrane as well as bind other membrane proteins and lipids (Bennett and Baines 2001). Defects in spectrin genes have been linked to some forms of hereditary spherocytosis, a type of auto-hemolytic anemia which is characterized by spherical red blood cells that are more prone to lysis. Alpha II Spectrin Antibody is ideal for researchers interested in cell cycle research.
Synonyms:	Spectrin alpha chain non-erythrocytic 1, Fodrin alpha chain, Spectrin nonerythroid alpha subunit
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	Antiserum

Target Details

Gene Name:	SPTAN1
Reactivity:	Human, Mouse, Rat
Immunogen Type:	Recombinant Protein
Immunogen:	Anti-Alpha II Spectrin Antibody was produced in rabbits by repeated immunizations with a recombinant construct containing the 7th, 8th, 9th repeats of human alpha II spectrin expressed in and purified from E. coli.

Purity/Specificity:	Anti-Alpha II Spectrin Antibody was purified in a neat serum.
Relevant Links:	• UniProtKB - Q13813 • GeneID - 6709 • NCBI - NP_001123910

Application Details

Tested Applications:	IHC, WB
Application Note:	Anti-Alpha II Spectrin Antibody is stored as a neat serum. It is tested for Western Blot, immunohistochemistry, and immunocytochemistry. Expect a band at approximately ~240 kDa on specific lysates or tissues. Specific conditions for reactivity should be optimized by the end user.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
ELISA:	1:50,000
IHC:	1:500-1:1000
WB:	1:3000

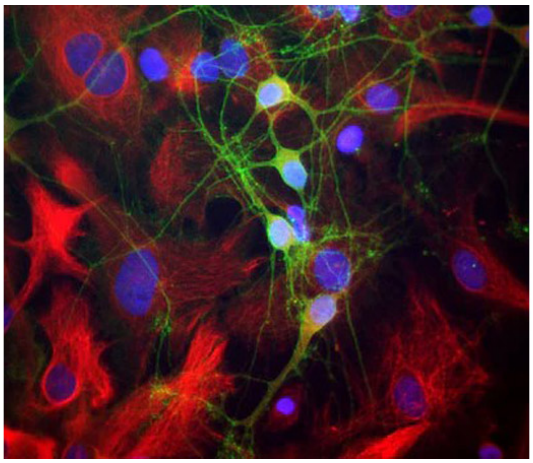

Formulation

Physical State:	Liquid (sterile filtered)
Buffer:	None
Preservative:	None
Stabilizer:	None

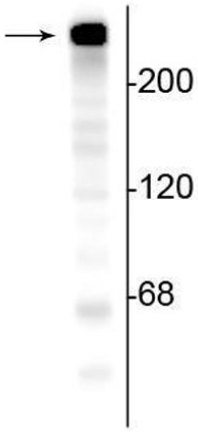

Shipping & Handling

Shipping Condition:	Wet Ice
Storage Condition:	Store vial at -20° C prior to opening in undiluted aliquots. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.

Images

Immunofluorescence Microscopy
Immunofluorescence of cultured neurons and glia cells showing specific labeling of neuronal perikarya, axons and dendrites with anti-alpha-II-spectrin (p/n100-401-W92, 1:1000, green), specific labeling of intermediate filaments in glial and fibroblastic cells with anti-vimentin (1:5000, red) and nuclear staining with DAPI (blue).

Western Blot
Western Blot of anti-alpha-II-spectrin antibody.
Mouse brain lysate showing specific immunolabeling of the ~240 kDa alpha II spectrin protein.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc. If you require a commercial license to use this material and do not have one, then return this material, unopened to: Rockland Inc., P.O. BOX 5199, Limerick, Pennsylvania, USA.
