Datasheet for 108-4101

Horse Serum Antibody

Overview

Description:	Anti-Horse Serum (RABBIT) Antibody - 108-4101
Item No.:	108-4101
Size:	2 mL
Reactivity:	Horse
Host Species:	Rabbit

Product Details

Background:	Anti-Horse serum antibody detects horse serum proteins. Horse serum proteins are proteins in the portion of plasma remaining after coagulation of blood, during which process the plasma protein fibrinogen is converted to fibrin and remains behind in the clot. Anti-Horse serum antibody is ideal for investigators involved in Cell biology, Neuroscience and Signal Transduction research.
Synonyms:	rabbit Anti-horse whole serum, rabbit anti-horse serum, anti-serum, detect horse serum proteins
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	Antiserum

Target Details

Gene Name:	ALB
Reactivity:	Horse
Immunogen Type:	Native Protein
Immunogen:	Anti-Horse serum antibody was produced by repeated immunizations with horse serum proteins.
Purity/Specificity:	Anti-Horse serum antibody was prepared from polyspecific antiserum by a delipidation and defibrination. Assay by immunoelectrophoresis resulted in multiple precipitin arcs against Horse Serum.

Relevant Links:	• UniProtKB - P35747

Application Details

Application Note:	Anti-Horse serum antibody is suitable for western blotting, IP and for ELISA. Researchers should determine optimal titers for applications that are not stated below.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
ELISA:	User Optimized
IP:	User Optimized
WB:	User Optimized

Formulation

Physical State:	Lyophilized
Concentration:	80 mg/mL by Refractometry
Buffer:	0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative:	0.01% (w/v) Sodium Azide
Stabilizer:	None
Reconstitution Volume:	2.0 mL
Reconstitution Buffer:	Restore with deionized water (or equivalent)

Shipping & Handling

Shipping Condition:	Ambient
Storage Condition:	Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications.
