

Datasheet for 200-301-E58**Hsp40 (YDJ1) Antibody****Overview**

Description:	Anti-HSP40 (YDJ1) (MOUSE) Monoclonal Antibody - 200-301-E58
Item No.:	200-301-E58
Size:	100 µg
Applications:	IP, WB
Reactivity:	Yeast
Host Species:	Mouse

Product Details

Background:	Human Hsp40/DnaJ proteins comprise a large protein family, members of which feature the J domain (named after the bacterial DnaJ protein). The J-domain spans the first 75 N-terminal amino acids and is separated from the C-terminal by a glycine/phenylalanine-rich domain. There are two main types of Hsp40; type I DNAJ proteins including HDJ2 and yeast Ydj1; type II includes yeast Sis1 and human Hdj1. Whereas type I possesses a zinc finger domain which helps in the function of protein folding, type II does not. Members of the Hsp40/DnaJ family play diverse roles in many cellular processes, such as folding, translocation, degradation and assembly of multi-protein complexes. Hsp40 stimulates the ATPase activity of Hsp70 which in turn causes conformational changes of the unfolded proteins. The Hsp40-Hsp70-unfolded protein complex further binds to co-chaperones Hip, Hop and HSP90 which leads to protein folding, or components of protein degradation machinery CHIP and BAG-1.
Synonyms:	Mitochondrial protein import protein MAS5, Yeast dnaJ protein 1, YDJ1, MAS5, YNL064C, N2418, YNL2418C
Host Species:	Mouse
Clonality:	Monoclonal
Clone ID:	1G10.H8
Format:	IgG1

Target Details

Gene Name:	YDJ1
-------------------	------

Reactivity:	Yeast
Immunogen Type:	Recombinant Protein
Immunogen:	Hsp40 (YDJ1) Antibody was produced in mice by repeated immunizations raised against full length protein yeast Hsp40 (YDJ1).
Purity/Specificity:	Anti-Hsp40, YDJ1 Antibody was purified by Protein G chromatography. A BLAST analysis was used to suggest cross-reactivity with Hsp40 from yeast based on 100% homology with the immunizing sequence. Cross-reactivity with Hsp40 from other sources has not been determined. Heat Shock research.

Application Details

Tested Applications:	IP, WB
Application Note:	Anti-Hsp40 Antibody has been tested by western blot and IP and is suitable for ELISA. Expect a band approximately ~40kDa protein corresponding to the molecular mass of Hsp40 on SDS PAGE immunoblots. Specific conditions for reactivity should be optimized by the end user.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
ELISA:	1:200
IP:	User Optimized
WB:	1:2000

Formulation

Physical State:	Liquid (sterile filtered)
Concentration:	1 mg/mL by UV absorbance at 280 nm
Preservative:	0.09% (w/v) Sodium Azide
Stabilizer:	50% (v/v) Glycerol

Shipping & Handling

Shipping Condition:	Dry Ice
----------------------------	---------

Storage Condition: Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Western Blot

Western Blot of mouse anti-Hsp40 YDJ1 antibody. Lane 1: human cell line mix. Lane 2: none. Load: 10 µg per lane. Primary antibody: Hsp40 YDJ1 antibody at 1:1000 for overnight at 4°C. Secondary antibody: IRDye800™ mouse secondary antibody at 1:10,000 for 45 min at RT. Block: 5% BLOTTO overnight at 4°C. Predicted/Observed size: 44.7 kDa/~45 kDa for Hsp40 YDJ1. Other band(s): none.
