Datasheet for 200-301-G59

TrpV3 Antibody

Overview

Description:	Anti-TRPV3 (MOUSE) Monoclonal Antibody - 200-301-G59
Item No.:	200-301-G59
Size:	100 µg
Applications:	IF, IHC, IP, WB
Reactivity:	Human, Mouse, Rat
Host Species:	Mouse

Product Details

Background:	The TRPV3 protein belongs to a family of nonselective cation channels that function in a variety of processes, including temperature sensation and vasoregulation. The thermosensitive members of this family are expressed in subsets of sensory neurons that terminate in the skin, and are activated at distinct physiological temperatures. This channel is activated at temperatures between 22 and 40 degrees C. The gene lies in close proximity to another family member (TRPV1) gene on chromosome 17, and the two encoded proteins are thought to associate with each other to form heteromeric channels.
Synonyms:	transient receptor potential cation channel subfamily V member 3, VRL3, sensitive channel TRPV3, vanilloid receptor 2
Host Species:	Mouse
Clonality:	Monoclonal
Clone ID:	N15/39
Format:	IgG2a

Target Details

Gene Name:	Trpv3
Reactivity:	Human, Mouse, Rat
Immunogen Type:	Conjugated Peptide

Immunogen:	TrpV3 Antibody was produced in mice by repeated immunizations raised against a synthetic peptide corresponding to the c-terminus region of rat TrpV3.
Purity/Specificity:	Anti-TrpV3 Antibody was purified by Protein G chromatography. A BLAST analysis was used to suggest cross-reactivity with TrpV3 from human, mouse, and rat based on 100% homology with the immunizing sequence. Cross-reactivity with TrpV3 from other sources has not been determined. Ion Channels research.

Application Details

Tested Applications:	IF, IHC, IP, WB
Application Note:	Anti-TrpV3 Antibody is tested for use in WB, IF, IHC-P, and IP. Expect a band approximately ~70kDa on specific lysates. Specific conditions for reactivity should be optimized by the end user.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
IF:	1.0-10ug/mL
IHC:	0.1-1.0ug/mL
IP:	User Optimized
WB:	1-10ug/mL

Formulation

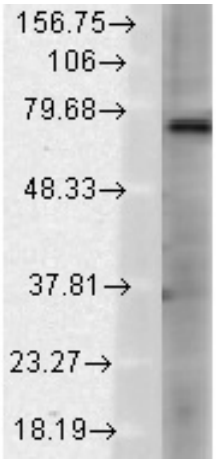

Physical State:	Liquid (sterile filtered)
Concentration:	1mg/mL by UV absorbance at 280 nm
Buffer:	1X PBS, pH 7.4
Preservative:	0.09% (w/v) Sodium Azide
Stabilizer:	50% (v/v) Glycerol

Shipping & Handling

Shipping Condition:	Wet Ice

Storage Condition:	Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.

Western Blot
Western Blot of mouse anti-TrpV3 antibody. Lane 1: Rat brain membrane lysates. Primary antibody: TrpV3 antibody at 1:1000 for overnight at 4°C. Secondary antibody: Goat anti-mouse IgG HRP secondary antibody at 1:10,000 for 45 min at RT. Block: 5% Blotto overnight 4°C. Predicted/Observed size: 90.2 kDa/70kD. Other band(s): none.
