

Datasheet for 200-401-079**Trypsin Inhibitor Antibody****Overview**

Description:	Anti-Trypsin Inhibitor (RABBIT) Antibody - 200-401-079
Item No.:	200-401-079
Size:	100 µg
Applications:	ELISA, WB
Reactivity:	Soybean
Host Species:	Rabbit

Product Details

Background:	Trypsin inhibitor antibody is specific for soybean trypsin inhibitor. Soybean trypsin inhibitor inhibits trypsin, but also chymotrypsin and plasmin at a reduced level. SBTI has inhibitory effects towards plasma kallikrein and coagulation Factor Xa. Soybean trypsin inhibitor will not inhibit metalloproteases, tissue-based kallikrein, acid proteases, or thio proteases.
Synonyms:	rabbit anti-trypsin inhibitor antibody, 25 kDa trypsin inhibitor (Protease inhibitor 15 preproprotein) antibody, CRISP8 antibody, KTi antibody, Kti S antibody, KTi3 antibody, KtiS antibody, Kunitz trypsin inhibitor antibody, Kunitz type trypsin inhibitor A antibody
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	KTi3
Reactivity:	Soybean
Immunogen Type:	Native Protein
Immunogen:	Trypsin Inhibitor [Soybean]

Purity/Specificity: Anti-trypsin inhibitor antibody is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Rabbit Serum as well as purified and partially purified Trypsin Inhibitor [Soybean]. Cross reactivity against Trypsin Inhibitor from other sources may occur but have not been specifically determined.

Application Details

Tested Applications: ELISA, WB

Application Note: Soybean trypsin inhibitor antibody has been tested by ELISA and western blot and is assayed against 1.0 ug of Trypsin Inhibitor [Soybean] in a standard ELISA using Peroxidase conjugated Affinity Purified anti-Rabbit IgG #611-1302 and (ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) as a substrate for 30 minutes at room temperature. A working dilution of 1:3,000 to 1:12,000 of the reconstitution concentration is suggested for this product.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

ELISA: 1:5,000 - 1:20,000

IP: 1:100

WB: 1:500 - 1:5,000

Formulation

Physical State: Liquid (sterile filtered)

Concentration: 1.0 mg/mL by UV absorbance at 280 nm

Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Preservative: 0.01% (w/v) Sodium Azide

Stabilizer: None

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Images

ELISA

F) GT01 R63A binds to GTD after incubation with trypsin. GT01 R63A was incubated with 10 or 100 U/mL trypsin for 0 or 30 min. GT01 R63A (green) or trypsin-only controls (gray) were incubated for 30 min at 37 °C before ELISA. GT01 R63A binding to GTD was measured by ELISA. All error bars are mean $\pm$ 1 s.d., n = 3 with individual data-points as crosses. Supplementary Figure 8. PMID: 34381153

Western Blot

Western Blot of Rabbit Anti-Trypsin Inhibitor Antibody. Lane 1: Opal PreStained Molecular Weight Marker (p/n MB-210-0500). Lane 2: Trypsin Inhibitor [50ng]. Primary Antibody: Anti-Trypsin Inhibitor at 1 μ g/mL overnight at 2-8°C. Secondary Antibody: Goat Anti-Rabbit IgG HRP (p/n 611-103-122) 1:40,000 for 30mins at RT. Block: BlockOut Buffer (p/n MB-073) for 30mins at RT. Expect: ~25kDa.
