

Datasheet for 200-4657**Carbonic Anhydrase II Antibody Biotin Conjugated****Overview**

Description:	Anti-Carbonic Anhydrase II (RABBIT) Antibody Biotin Conjugated (BULK ORDER) - 200-4657
Item No.:	200-4657
Size:	10 mg
Applications:	ELISA
Reactivity:	Bovine
Host Species:	Rabbit

Product Details

Background:	Anti-Carbonic Anhydrase II antibody is necessary for bone resorption and osteoclast differentiation and is involved in the reversible hydration of carbon dioxide. Belonging to the alpha-carbonic anhydrase family, Anti-Carbonic Anhydrase II antibody is ideal for investigators involved in the areas of Cardiovascular and Cell Biology research.
Synonyms:	rabbit anti-Carbonic Anhydrase II Antibody biotin Conjugation, biotin conjugated rabbit anti-Carbonic Anhydrase II Antibody, Carbonate dehydratase II antibody, Carbonic anhydrase 2 antibody, Carbonic anhydrase B antibody, Carbonic anhydrase C antibody, Carbonic anhydrase II antibody, Carbonic dehydratase antibody, CAC, CA-II
Host Species:	Rabbit
Conjugate:	Biotin
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	CA2
Reactivity:	Bovine
Immunogen Type:	Native Protein
Immunogen:	Carbonic Anhydrase II [Bovine Erythrocytes]

Purity/Specificity: Anti-Carbonic Anhydrase II is an IgG fraction antibody purified from monospecific antiserum by a multi-step process which includes delipidation, salt fractionation and ion exchange chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Biotin, anti-Rabbit Serum as well as purified and partially purified Carbonic Anhydrase II [Bovine Erythrocytes]. Cross reactivity against Carbonic Anhydrase II from other sources may occur but has not been specifically determined.

Application Details

Tested Applications: ELISA

Application Note: Anti-Carbonic Anhydrase II Biotin Conjugated Antibody has been tested against 1.0 ug of Carbonic Anhydrase II in a standard capture ELISA using Peroxidase Conjugated Streptavidin #S000-03 and ABTS (2,2'-azino-bis-[3-ethylbenthiazoline-6-sulfonic acid]) code # ABTS-100 as a substrate for 30 minutes at room temperature. A working dilution of 1:4,000 to 1:20,000 of the reconstitution concentration is suggested for this product.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

ELISA: 1:20,000 - 1:100,000

WB: 1:2,000 - 1:10,000

Formulation

Physical State: Lyophilized

Concentration: 10.0 mg/mL by UV absorbance at 280 nm

Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Preservative: 0.01% (w/v) Sodium Azide

Stabilizer: 10 mg/mL Bovine Serum Albumin (BSA) - Immunoglobulin and Protease free

Reconstitution Volume: 1.0 mL

Reconstitution Buffer: Restore with deionized water (or equivalent)

Shipping & Handling

Shipping Condition:	Ambient
Storage Condition:	Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.

Images

ELISA

ELISA results of purified Rabbit Anti-CARBONIC ANHYDRASE II Biotin Conjugated Antibody tested against Carbonic Anhydrase II. Each well was coated in duplicate with 1.0 µg of Carbonic Anhydrase II. The starting dilution of antibody was 5µg/ml and the X-axis represents the Log10 of a 3-fold dilution. This titration is a 4-parameter curve fit where the IC50 is defined as the titer of the antibody. Assay performed using Blocking buffer MB-060-1000, Streptavidin HRP conjugate, and TMB-1000 substrate.
