

Datasheet for 600-401-CN6**LXR-B Antibody****Overview**

Description:	Anti-LXR-B (RABBIT) Antibody - 600-401-CN6
Item No.:	600-401-CN6
Size:	100 µg
Applications:	ELISA, WB
Reactivity:	Human, Mouse, Rat
Host Species:	Rabbit

Product Details

Background:	LXR-B belongs to the Liver X Receptor family that encodes highly homologous transcription factors. Like the highly homologous LXR-A, LXR-B forms heterodimers with the retinoic acid receptor RXRalpha, which function as sensors for cellular oxysterols which when activated, increase the expression of genes that control sterol and fatty acid metabolism and homeostasis. Recent experiments have indicated that the LXRs can also modulate both innate and adaptive immune responses. Other studies suggest that genetic variability at the LXR-B gene locus may be a risk factor for Alzheimer's disease. One hypothesis postulates that LXR may be upstream of ApoE and potentiates the risk associated effects of the epsilon3 allele.
Synonyms:	LXR-B Antibody, NER, UNR, LXRb, LXR-b, NER-I, RIP15, NER, Oxysterols receptor LXR-beta, Liver X receptor beta
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	NR1H2
Reactivity:	Human, Mouse, Rat
Immunogen Type:	Conjugated Peptide
Immunogen:	Anti-LXR-B antibody was prepared from whole rabbit serum produced by repeated immunizations with a 14 amino acid synthetic peptide from near the N-terminus human LXR-B.

Purity/Specificity: Anti-LXR-B Antibody was affinity purified from monospecific antiserum by immunoaffinity chromatography. Cross reactivity with LXR-B from other sources has not been determined.

Application Details

Tested Applications: ELISA, WB

Application Note: Anti-LXR-B Antibody has been tested for use in ELISA and Western Blotting. Specific conditions for reactivity should be optimized by the end user. Expect a band at approximately 51 kDa in Western Blots of specific cell lysates and tissues.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

ELISA: 1:10,000 - 1:20,000

WB: 1-2 µg/mL

Formulation

Physical State: Liquid (sterile filtered)

Concentration: 1 mg/mL by UV absorbance at 280 nm

Buffer: 0.01 M Sodium Phosphate, 0.25 M Sodium Chloride, pH 7.2

Preservative: 0.02% (w/v) Sodium Azide

Stabilizer: None

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Images

Western Blot

Western Blot of LXR-B antibody. Lane 1: human lung tissue lysate with LXR-B antibody at 1 µg/mL. Lane 2: human lung tissue lysate with LXR-B antibody at 2 µg/mL. Secondary antibody: Peroxidase rabbit secondary antibody at 1:10,000 for 45 min at RT. Block: 5% BLOTTO overnight at 4°C. Predicted/Observed size: 51 kDa, 52 kDa for LXR-B. Other band(s): LXR-B splice variants and isoforms.
