

Datasheet for 600-401-FU2**UHRF1BP1L Antibody****Overview**

Description:	Anti-UHRF1BP1L (RABBIT) Antibody - 600-401-FU2
Item No.:	600-401-FU2
Size:	100 µg
Applications:	ELISA, IF, IHC, WB
Reactivity:	Human, Mouse
Host Species:	Rabbit

Product Details

Background:	The Ubiquitin-like containing PHD and RING finger domains 1-binding protein 1-like (UHRF1BP1L) is closely related to UHRF1BP1, also known as ICBP90, a transcription and cell cycle regulator that specifically binds to the histone H3 N-terminal tail. While little is known of UHRF1BP1L, UHRF1BP1 is required for proper heterochromatin formation in mammalian cells. Furthermore, UHRF1BP1 is thought to be a pivotal target for the ERK1/2 signaling pathway to control the proliferation of Jurkat T cells, suggesting that UHRF1BP1L may also be involved in chromatin regulation and cell proliferation.
Synonyms:	UHRF1BP1L Antibody, SHIP164, KIAA0701, UHRF1-binding protein 1-like
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	UHRF1BP1L
Reactivity:	Human, Mouse
Immunogen Type:	Conjugated Peptide
Immunogen:	Anti-UHRF1BP1L antibody was prepared from whole rabbit serum produced by repeated immunizations with a 17 amino acid synthetic peptide near the internal region of human UHRF1BP1L.

Purity/Specificity: Anti-UHRF1BP1L Antibody was affinity purified from monospecific antiserum by immunoaffinity chromatography. At least two isoforms of UHRF1BP1L are known to exist; this antibody will recognize both isoforms. UHRF1BP1L antibody is predicted to not cross-react with UHRF1BP1

Application Details

Tested Applications: ELISA, IF, IHC, WB

Application Note: Anti-UHRF1BP1L Antibody has been tested for use in ELISA, Western Blotting, Immunohistochemistry and Immunofluorescence. Specific conditions for reactivity should be optimized by the end user. Expect a band at approximately 164 kDa in Western Blots of specific cell lysates and tissues.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

ELISA: 1:10,000

IF: 20 µg/mL

IHC: 2.5 µg/mL

WB: 1 µg/mL

Formulation

Physical State: Liquid (sterile filtered)

Concentration: 1 mg/mL by UV absorbance at 280 nm

Buffer: 0.01 M Sodium Phosphate, 0.25 M Sodium Chloride, pH 7.2

Preservative: 0.02% (w/v) Sodium Azide

Stabilizer: None

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Images

Immunohistochemistry

Immunohistochemistry of UHRF1BP1L. Tissue: human kidney tissue.

Primary Antibody: UHRF1BP1L antibody at 2.5 µg/mL.

Immunofluorescence Microscopy

Immunofluorescence of UHRF1BP1L. Tissue: human kidney tissue. Primary Antibody: UHRF1BP1L antibody at 20 µg/mL.

**Western Blot**

Western blot analysis of UHRF1BP1L.

Load: mouse brain tissue lysate.

Primary Antibody: UHRF1BP1L antibody at 1 µg/mL.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale. Suggested uses of our products are not recommendations to use our products in violation of any patent or as a license under any patent of Rockland Immunochemicals, Inc.
