

Datasheet for 600-401-GF9 ZMYM4 Antibody

Overview

Description:	Anti-ZMYM4 (RABBIT) Antibody - 600-401-GF9
Item No.:	600-401-GF9
Size:	100 µg
Applications:	ELISA, IHC
Reactivity:	Human
Host Species:	Rabbit

Product Details

Background:	Zinc-finger proteins contain DNA-binding domains characterized by the unique role of zinc and have a wide variety of functions such as transcriptional activation or repression. The protein folding and the DNA binding ability are governed by the coordination of a zinc ion. It has been found to be overexpressed in human lung adenocarcinomas and squamous cell carcinomas, and the overexpression of a fragment of the 3'UTR of the ZMYM4 mRNA termed Cell Death Inhibiting RNA (CDIR) protects HeLa cells from IFN-gamma-induced apoptosis, suggesting that ZMYM4 may play a role in tumorigenesis.
Synonyms:	ZMYM4 Antibody, MYM, CDIR, ZNF262, ZNF198L3, KIAA0425, Zinc finger MYM-type protein 4, Zinc finger protein 262
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	ZMYM4
Reactivity:	Human
Immunogen Type:	Conjugated Peptide
Immunogen:	Anti-ZMYM4 antibody was prepared from whole rabbit serum produced by repeated immunizations with a 17 amino acid synthetic peptide near the C-terminus of human ZMYM4.

Purity/Specificity: Anti-ZMYM4 Antibody was affinity purified from monospecific antiserum by immunoaffinity chromatography. At least three isoforms of ZMYM4 are known to exist; this antibody will detect all of them. ZMYM4 antibody is predicted not to cross-react with other ZMYM family members.

Application Details

Tested Applications: ELISA, IHC

Application Note: Anti-ZMYM4 Antibody has been tested for use in ELISA and Immunohistochemistry. Specific conditions for reactivity should be optimized by the end user. Expect a band at approximately 173 kDa in Western Blots of specific cell lysates and tissues.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

ELISA: User Optimized

IHC: 5 µg/mL

Formulation

Physical State: Liquid (sterile filtered)

Concentration: 1 mg/mL by UV absorbance at 280 nm

Buffer: 0.01 M Sodium Phosphate, 0.25 M Sodium Chloride, pH 7.2

Preservative: 0.02% (w/v) Sodium Azide

Stabilizer: None

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Images

Immunohistochemistry

Immunohistochemistry of ZMYM4.

Tissue: human tonsil.

Primary Antibody: ZMYM4 antibody at 5 µg/mL.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale.
