

Datasheet for 600-401-J39

HDAC6 (internal) Antibody**Overview**

Description:	Anti-HDAC6 (RABBIT) Antibody - 600-401-J39
Item No.:	600-401-J39
Size:	100 µg
Reactivity:	Human
Host Species:	Rabbit

Product Details

Background:	HDAC6 antibody is a cytoplasmic enzyme that regulates many cellular functions. In particular it has been implicated in cell migrations, degradation of misfolded proteins, tubulin and HSP90 deacylation. Anti-HDAC6 antibody is ideal for researchers interested in Stem Cell and Epigenetics and Nuclear Signaling research.
Synonyms:	rabbit anti-HDAC-6 antibody, HDAC6, HDAC 6, HD 6 antibody, histone deacetylase 6 antibody, Histone deacetylase-6, HD6 antibody, JM21
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	HDAC6
Reactivity:	Human
Immunogen Type:	Conjugated Peptide
Immunogen:	HDAC6 affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to the internal region of human HDAC6.
Purity/Specificity:	Anti-HDAC6 was affinity purified from monospecific antiserum by immunoaffinity chromatography. A BLAST analysis was used to suggest cross-reactivity with monkey and human based on 100% sequence homology. Cross-reactivity with HDAC6 from other sources has not been determined.

Application Details

Application Note: Anti-HDAC6 antibody is useful for ELISA, immunohistochemistry, and Western Blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately ~134kDa corresponding to the appropriate cell lysate or extract.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

ELISA: 1: 10,000

WB: 1µg/mL

Formulation

Physical State: Liquid (sterile filtered)

Concentration: 1.09 mg/ml by UV absorbance at 280 nm

Buffer: 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2

Preservative: 0.05% (w/v) Sodium Azide

Stabilizer: 30% Glycerol

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -20° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Disclaimer

This product is for research use only and is not intended for therapeutic or diagnostic applications. Please contact a technical service representative for more information. All products of animal origin manufactured by Rockland Immunochemicals are derived from starting materials of North American origin. Collection was performed in United States Department of Agriculture (USDA) inspected facilities and all materials have been inspected and certified to be free of disease and suitable for exportation. All properties listed are typical characteristics and are not specifications. All suggestions and data are offered in good faith but without guarantee as conditions and methods of use of our products are beyond our control. All claims must be made within 30 days following the date of delivery. The prospective user must determine the suitability of our materials before adopting them on a commercial scale.
