

Datasheet for 600-401-P80**MRGPCR/SNSR Antibody****Overview**

Description:	Anti-MRGPCR/SNSR (RABBIT) Antibody - 600-401-P80
Item No.:	600-401-P80
Size:	100 µg
Applications:	IHC, WB
Reactivity:	Rat
Host Species:	Rabbit

Product Details

Background:	MAS-related G-protein coupled receptor, member C, also known as MRGPCR or MRGPRX1, is a human gene. The Mas-related genes (MrGs) comprise a family of >50 G protein-coupled receptors (GPCRs), many of which are expressed in specific subsets of nociceptive sensory neurons in mice. In contrast, humans contain a related but nonorthologous family of genes, called MrgXs or sensory neuron-specific receptors, of which many fewer appear to be expressed in sensory neurons. This antibody is suitable for researchers interested in neuroscience research.
Synonyms:	Mas-related G-protein coupled receptor member X1, Sensory neuron-specific G-protein coupled receptor 1, Mrgrpx1, Mrgc, Mrgrpc, Mrgrpc11, Snsr, Snsr1
Host Species:	Rabbit
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	Mrgrpx1
Reactivity:	Rat
Immunogen Type:	Conjugated Peptide
Immunogen:	MRGPCR/SNSR affinity purified antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to a sequence at the N-terminal of rat MRGPCR.

Purity/Specificity: Anti-MRGPRC antibody is directed against rat MRGPRC protein. The product was affinity purified from monospecific antiserum by immunoaffinity purification. A BLAST analysis was used to suggest reactivity with this protein from rat based on 100% homology for the immunogen sequence. Cross reactivity with MRGPRC from other sources has not been determined.

Application Details

Tested Applications: IHC, WB

Application Note: Anti-MRGPRC is tested for Immunohistochemistry-P and Western Blotting. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately ~37.1 kDa corresponding to the appropriate cell lysate or extract.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

IHC: 1:100-1:500

WB: 0.5µg/mL

Formulation

Physical State: Lyophilized

Concentration: 0.5 mg/mL by UV absorbance at 280 nm

Buffer: 0.9mg NaCl, 0.2mg Na₂HPO₄, 0.05mg NaN₃

Preservative: 0.05mg Thimerosal

Stabilizer: 5mg BSA

Reconstitution Volume: 100 µL

Reconstitution Buffer: Restore with deionized water (or equivalent)

Shipping & Handling

Shipping Condition: Ambient

Storage Condition: Store vial at 4° C prior to opening. Aliquot contents and freeze at -20° C or below for extended storage. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.
