

Datasheet for KOA0123**Ms IgM FITC-HRP IHC Detection Kit****Overview**

Description:	Mouse IgM Specific FITC-HRP (F-ABC) Detection Kit - KOA0123
Item No.:	KOA0123
Size:	1 Kit
Reactivity:	Mus musculus (Mouse)
Host Species:	Goat

Product Details

Background:	Mouse IgM Specific Fluorescein-Peroxidase Streptavidin-Biotin Complex Immunohistochemistry Detection Kit is a streptavidin-biotin immuno-enzymatic antigen detection system. This system involves the sequential incubation of the sample with an unconjugated primary antibody specific to the target antigen, a biotinylated secondary antibody that reacts with the primary antibody, fluorescein-peroxidase conjugated streptavidin, and chromogen substrate. Mouse IgM Specific FITC-HRP kit includes reagents specifically designed for the use in the analysis of antigens in IHC and other immunodetection assays. The provided protocol includes steps for high sensitivity analysis with low background using normal goat serum blocking reagent, biotinylated secondary antibody, and -fluorescein-peroxidase conjugated streptavidin.
Synonyms:	FITC + HRP Conjugated Kit Assay, StreptAvidin-Biotin Complex, peroxidase Conjugated, Fluorescein conjugated, Biotin Assay, Anti-Mouse IgM antibody, Goat Anti-Mouse IgM antibody, colorimetric staining, immunohistochemistry staining
Host Species:	Goat
Conjugate:	Fluorescein+Peroxidase
Clonality:	Polyclonal
Detection Kit Type:	Immunohistochemistry Kit

Target Details

Reactivity:	Mus musculus (Mouse)
Relevant Links:	<ul style="list-style-type: none">KOA0123 protocol

Application Details

Application Note:	This kit contains concentrated products and will need dilution. See kit insert for details. Useful for Immunohistochemistry. IHC(P): 1:50-200, IHC(F): 1:50-200, ICC: 1:50-200. Optimal dilutions should be determined by end users.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
IHC:	1:50-200

Formulation

Shipping & Handling

Shipping Condition:	Wet Ice
Storage Condition:	Store at 4°C for 12 months. Avoid freezing. See kit insert for complete instructions.
Expiration:	Expiration date is one (1) year from date of receipt.
