

Datasheet for MB-048**1.0 M Magnesium Chloride (DEPC Treated)****Overview**

Description:	1.0 M Magnesium Chloride (DEPC Treated) - MB-048
Item No.:	MB-048
Size:	100 mL

Product Details

Background:	1.0 M Magnesium Chloride DEPC Treated solution is suitable for molecular biology assays, such as making lysis buffers, medias, including PCR reactions. Magnesium chloride is used in nutraceutical and pharmaceutical preparations. Magnesium has a variety of biological roles in enzymology, cell membrane/wall structure, muscle cell physiology, and nucleic acid structure. Magnesium is an essential co-factor in many enzymes, including DNase, some restriction enzymes, and Ribonuclease H.
Synonyms:	1.0 M Magnesium Chloride Solution, 1.0 M Magnesium Chloride DEPC Treated Solution

Target Details

Purity/Specificity:	This product was aseptically filtered through a Millipore 0.22 micron filter into clean, pre-sterilized containers. The product was tested on trypticase soy agar for 24 hours, 48 hours and 72 hours and was found to be negative for bacteria.
Relevant Links:	MB-048 SDS

Application Details

Application Note:	This product is a 1.0M concentrated stock solution and should be diluted appropriately with distilled, deionized water or equivalent to its final working concentration. This buffer contains 1.0 M Magnesium Chloride and was meticulously prepared using ultra pure reagents dissolved in highly polished pharmaceutical grade deionized water treated with diethyl pyrocarbonate (DEPC).
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

Formulation

Physical State:	Liquid (sterile filtered)
Concentration:	1.0 M
Buffer:	See application note.
Preservative:	None
Stabilizer:	None

Shipping & Handling

Shipping Condition:	Ambient
Storage Condition:	Store container at room temperature (18° to 26° C) prior to opening.
Expiration:	Expiration date is six (6) months from date of receipt.
